

# Top 10 Responsible Travel Tips

1

Before you go, switch off all electronics at home.

3

When leaving your room, make sure all lights, air conditioners and devices are switched off.

2

Pack light – you can reduce your emissions by only taking the essentials.

4

Reduce emissions, meet the locals and immerse yourself in the culture by using public transport.

5

Use reusable products to reduce disposable plastic waste e.g. water bottles, plastic bags and straws

6

Be mindful of your surroundings. Aim to disrupt the natural environment as little as possible.

7

Avoid polluting the oceans. Apply a natural sunscreen 1/2 an hour before swimming to prevent it from harming marine ecosystems.

8

Save water when you stay – opt not have towels and sheets washed everyday, re-wear clothes that aren't dirty.

9

If renting a car, opt for smaller, more fuel efficient vehicles and try to car pool where possible.

10

Lead by example and spread the word! Encourage other guests to be environmentally conscious and demonstrate how this can be achieved.
